OF TECHNOLOGY, SURAT
COMPUTER SCIENCE AND ENGINEERING DEPARTMENT
B. Tech-1st Year
(Even Semester- 2024-2025)
Subject – Web Programming (CS104)
Lab Assignment 12

1. Print current date, day and Time in Javascript Program. (Add script with HTML page) Use Date() in Javascript.
Reference: JavaScript Get Date Methods

2. Create a calculator with javascript. You need to create two input boxes (with HTML form, or any other way) , and provide different buttons/ clickable elements for Addition, Subtraction, Multiple, Divide, Power, and Modulo. Display the result within the HTML page only.

3. Write javascript program to explore String functions like concat(), slice(), split() and all others as given in below:
Reference. JavaScript String Reference

In the html page, take user input of a string , and on click of different function names, display results in front of it.
